

Spreader Bar for Forklifts

Forklift Spreader Bars - ELME has been proudly operating ever since the year 1974, becoming the biggest independent spreader manufacturer in the world. They are a devoted maker of spreaders utilized for a lot of various applications like the handling of containers, swap bodies and trailers.

Engineering is done in house by means of using the latest CAD systems and FEM tools. The ELME company presently employs more than one hundred twenty five employees. Their spreaders are supplied to reach stackers, straddle carriers, lift trucks, gantry, quayside and ship-to-shore cranes around the world.

The ELME product range offers spreaders intended for several container and trailer handling operations. Some of their inventory consist of: Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift trucks in addition to a wide range of additional parts.

ELME production and manufacturing is performed in a highly automated purpose built factory. In 2008, they created more than 1150 spreaders by means of making use of high quality components to guarantee dependability and high standards while offering reasonable prices. Major characteristics of ELME consist of design simplicity, market reaction and innovative modular spreader concept.
